In the stunning landscape and amphitheatre of the C19th military base, Estuary 2016 presents the premiere of *Creature of the Estuary: Five Scenes of Fear* by artist and filmmaker Eelyn Lee. Developed while in residence at Metal and shot on location along the South Essex coastline of the Thames Estuary, the film explores collective memories, dreams and stories of fear associated with the river.

Followed by a sea themed, classic feature film, selected by public vote from our shortlist of four classics:

- *Moby Dick*, 1956
- *20,000 Leagues Under The Sea*, 1954
- *The Poseidon Adventure*, 1972
- *Wild River*, 1960
